

200 million pound-per-year glycerin distillation system, and a 45,000 barrel-per-month methanol distillation tower.

GreenHunter Energy's biodiesel refinery is "feedstock agnostic", meaning that it can use 100 percent animal fats, 100 percent vegetable oils, or any blend of the two interchangeably. By producing biodiesel from multiple feedstocks, including non-edible sources such as tallow and jatropha, GreenHunter offers practical solutions to the ongoing "food versus fuels" debate.

Located along Houston's Ship Channel, GreenHunter's campus has deepwater access and the ability to transport products via barge, rail, and truck. Biodiesel generators at the site will provide enough electricity for GreenHunter to power the campus and sell unneeded renewable power back to the area's power grid.

The addition of GreenHunter Energy's zero emission facility has created many new long-term jobs for Texans and will help move our nation closer to its goal of reducing dependence on foreign crude oil supplies.

PERSONAL EXPLANATION

HON. CAROLYN B. MALONEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 10, 2008

Mrs. MALONEY of New York. Madam Speaker, on June 9, 2008, I missed rollcall votes No. 388, Expressing support for designation of June 2008 as "National Safety Month," 389, Recognizing the immeasurable contributions of fathers in the healthy development of children, supporting responsible fatherhood, and encouraging greater involvement of fathers in the lives of their children, especially on Father's Day; and 390, Recognizing and celebrating the 50th anniversary of the entry of Alaska into the Union as the 49th State.

Had I been present, I would have voted "yea" on rollcall votes No. 388, 389, and 390.

INTRODUCTION OF THE WORKING FAMILIES GAS TAX CREDIT ACT OF 2008

HON. ALCEE L. HASTINGS

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 10, 2008

Mr. HASTINGS of Florida. Madam Speaker, I am honored to rise today to introduce the Working Families Gas Tax Credit Act of 2008. Similar to legislation that I introduced in the 109th Congress, this bill will provide greatly needed tax credits to individuals and families so that they can cope with soaring gas prices.

The Working Families Gas Tax Credit Act will provide a \$500 tax credit to individuals and a \$1,000 tax credit to families who make up to \$75,000 or \$150,000 or less, respectively.

This legislation will act as a secondary economic stimulus by providing credits to all individuals and families who were eligible for the economic stimulus rebate recently passed into law by the Democratic Congress. Similar to the 2008 economic stimulus package, the amount of the credit will phase out for individ-

uals making over \$75,000 and families making over \$150,000.

Madam Speaker, working families are paying twice as much as they were paying for a gallon of gas last year while oil companies are reporting record profits. It's literally highway robbery, especially when you consider that beyond housing costs, low- and middle-income households in the United States spend more of their earnings on transportation than anything else. Americans are looking to Congress to help them respond to unwarranted gas price increases. The Working Families Gas Tax Credit Act will give working families the temporary relief that they need during this difficult time.

While it is true that there have been a number of proposals offered by our colleagues to confront current fuel price challenges, this proposal is unique in that it will put necessary resources directly in the hands of consumers. This will be an important stop gap measure as we reprioritize our international fuel prices and confront the corruption and failed policies that have led to our Nation's unsustainable oil addiction.

I encourage my colleagues to support this necessary legislation and look forward to its expedient passage.

150 YEARS OF SPIRITUAL LEADERSHIP IN THE COMMUNITY

HON. BARNEY FRANK

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 10, 2008

Mr. FRANK of Massachusetts. Madam Speaker, this year marks the 150th Anniversary of an extraordinarily important religious congregation in the city of Newton, which I am proud to represent in this body, and where I have lived for 28 years. Congregation Mishkan Tefila has been an important part of the city of Newton since 1858. At that point, of course, Jewish citizens of the city were a very small number of a much smaller city. Over time, both the city and the Jewish population have grown significantly, and Temple Mishkan Tefila has been an important element in the growth of both. Temple Mishkan Tefila has of course been primarily a place of worship for large numbers of Jewish men, women and young people, and through a series of outstanding rabbis and other leaders, it has performed that essential function superbly. It has also been a forum for community leadership in a number of other ways. Its doors have always been open to the community, both its own members and the community at large, and I have personally benefited from that openness on a number of occasions by being able to participate in forums that the temple has run, which have helped me and others fulfill our duties to relate to our constituents.

Madam Speaker, I am very pleased to be able to salute the members of the Mishkan Tefila Congregation on this 150th Anniversary, and congratulate them on their opportunity both to look back on a very proud history, and to look forward to the promise of continued great service in the years ahead.

HONORING THE LEGACY OF CONSTANTINO BRUMIDI

HON. JOHN L. MICA

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 10, 2008

Mr. MICA. Madam Speaker, I rise today to honor the life and legacy of Constantino Brumidi, who has been referred to as the Michelangelo of the United States Capitol Building. It is appropriate that Congress honor his incredible contributions to our Nation by awarding him the Congressional Gold Medal.

On July 26, 1805, Constantino Brumidi was born in Rome, Italy of an Italian mother and a Greek father who inspired him with a love of liberty. While Constantino Brumidi's Greek ancestry stirred his passion for liberty and citizenship, his Italian heritage provided the art styles of the Renaissance and the Baroque which influenced the artwork of the U.S. Capitol.

Constantino Brumidi became a citizen of the United States as soon as he was able, embracing its history, values and ideals. Beginning in 1855, Constantino Brumidi designed and decorated one House and five Senate committee rooms in the Capitol, as well as the Senate Reception Room, the Office of the Vice President and most notably, the President's Room, which represents Brumidi's supreme effort "to make beautiful the Capitol" of the United States.

In 1865, Constantino Brumidi completed, in just 11 months, his masterpiece, "The Apotheosis of Washington," in the eye of the Capitol dome. In 1871, Constantino Brumidi created the first tribute to an African American in the Capitol when he placed the figure of Crispus Attucks at the center of his fresco of the Boston Massacre. In 1878, Constantino Brumidi, at the age of 72, and in poor health, began work on the Rotunda frieze, which chronicles the history of America. On February 19, 1880, Constantino Brumidi died at the age of 74, four and a half months after slipping and nearly falling from a scaffold while working on the Rotunda frieze.

Constantino Brumidi, proud of his artistic accomplishments and devoted to his adopted country, said: "My one ambition and my daily prayer is that I may live long enough to make beautiful the Capitol of the one country on earth in which there is liberty."

Madam Speaker, Constantino Brumidi's life and work exemplifies the lives of millions of immigrants who came to pursue the American dream.

CELEBRATING THE 10TH ANNIVERSARY OF NORTEX MODULAR SPACE IN LEWISVILLE, TX

HON. MICHAEL C. BURGESS

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 10, 2008

Mr. BURGESS. Madam Speaker, I rise today to congratulate the outstanding accomplishments of Nortex Modular Space of Lewisville, Texas, an exemplary organization in North Texas that is celebrating its 10th Anniversary.

Nortex Modular Space is a small business manufacturer with 95 employees based in
